

HERE ARE JUST A FEW OF THE MANY BENEFITS OF THE TOTAL WELLNES SYSTEM, BIO-FEEDBACK, PEMF AND INFORMATION THERAPY:

- ProVision returns recommended protocols to stimulate the client's innate self-healing ability.
- PEMF therapy reduces pain and speeds up healing by stimulating stem cell production.
- Regenerates damaged and diseased tissue.
- Resolves performance issues in healthy people and aids recovery after injury or illness.
- Relieves soreness, stiffness, arthritic conditions, ligament, tendon, muscle or bone injury.
- Improves circulation - not by increasing heartbeat or blood pressure - but by opening and dilating arteries and capillaries. This also reduces swelling.
- It's backed by more than 30 years of scientific research and over a decade of human studies.
- It's also widely used in the treatment of bone fractures and torn tendons.
- Enhances the synthesis of protein cells, allowing the body to take advantage of all protein available.
- Penetrates deep to relieve muscle soreness.
- Increases cellular level of oxygen absorption. Studies have shown O₂ partial pressure increased 200%.
- Infoceuticals help to restore the body's balance and stimulates specific healing responses.

MiHealth

PEMF – pulsated electromagnetic frequency - Pulse EMF – can add many frequencies at once vs electric current – which uses only 1 frequency

Electrodes emit tiny electrical currents that interact with the nervous system by stimulating a neuro hormonal response to aid pain and stimulate blood flow in the area – shift “stuckness” in the body
